Happiness by design

The happier you are the more beautiful you become

It's time to lighten up a bit. No, check that, to lighten up a lot. Banish ugly and uncomfortable office chairs to the scrapheap of history. To replace them with beauty, comfort, brightness and joy. So we invented ChairClub: German design meets South African engineering and production. Boom! Beautiful chairs and big smiles.

German quality and style

First we asked award-winning German designer Stefan Brodbeck to create office chairs that would throw out the office-chair rulebook. Youthful, happy and no-compromises comfortable. He got it.

Proudly made in South Africa

Then we asked our team in South Africa - product development, manufacturing, marketing, logistics, quality control and many others - to build our chairs to the highest global standards. They do.
