V.02

How can we make the perfect office chair?

Why is it that comfortable office chairs are so ugly, and beautiful office chairs so uncomfortable (and expensive?) Come on, its the 21st Century. So we set out to do better. To make a beautiful looking task-orientated chair that provides total support through a long day at the office. At a fair and affordable price.

Happiness by design

The happier you are the more beautiful you become

It's time to lighten up a bit. No, check that, to lighten up a lot. Banish ugly and uncomfortable office chairs to the scrapheap of history. To replace them with beauty, comfort, brightness and joy. So we invented ChairClub: South African engineering and production. Boom! Beautiful chairs and big smiles.

Proudly designed and made in South Africa

Our team in South Africa - product development, manufacturing, marketing, logistics, quality control and many others – build our chairs to the highest global standards.
