PART CHAIR. ALL HUMAN.

YUTU T&V.01

Sit comfortably in the moment

YuTu is an intelligently designed collaborative chair that encourages movement, supports multiple postures and provides comfort for long as well as short periods of time. YuTu's appealing, simple construction and controls make sitting a pleasure. Wherever. Whenever.

Options

5 star base

Polypropylene
Cast aluminium

Material

Upholstery back & seat
Mesh back

Mesh & Upholstery colours

Any colour - you choose - have fun!

For the fast, not the furious

Office workers typically clock up 5.5 hours a day behind a desk. But not all in one go! Hey, this is the 21st century. Lighten up! YuTu supports the way we work. More open space and more places to work. And continually switching and mixing between being deeply focused one minute and collaborative the next. We're fast, not furious.

Happiness by design

The happier you are the more beautiful you become

It's time to lighten up a bit. No, check that, to lighten up a lot. Banish ugly and uncomfortable office chairs to the scrapheap of history. To replace them with beauty, comfort, brightness and joy. So we invented ChairClub: German design meets African engineering and production. Boom! Beautiful chairs and big smiles.

German quality and style

First we asked award-winning German designer Stefan Brodbeck to create office chairs that would throw out the office-chair rulebook. Youthful, happy and no-compromises comfortable. He got it.

Proudly made in South Africa

Then we asked our team in South Africa - product development, manufacturing, marketing, logistics, quality control and many others - to build our chairs to the highest global standards. They do.
